

# ETH Nexus

*The Institutional Yield Layer for Ethereum*

## Executive Summary

ETH Nexus bridges the gap between traditional finance and DeFi by providing institutional-grade yield generation strategies on Ethereum. Our platform enables sophisticated investors to access premium yields while maintaining the highest standards of security and risk management.

## Market Overview

The institutional DeFi market represents a \$250B opportunity, with projected growth to \$10T+ by 2030. ETH Nexus is positioned to capture this growth through our innovative yield strategies and institutional-grade infrastructure.

## Yield Strategies

### ETH Staking + EigenLayer

**5% - 12% APY**

Secure, non-custodial staking with additional EigenLayer rewards.

### Institutional RWA Lending

**6% - 15% APY**

Real-world asset-backed lending for institutional borrowers.

### Funding Rate Arbitrage

**10% - 30% APY**

Automated cross-exchange funding rate capture strategies.

### ETH Options & Structured Vaults

# ETH Nexus

*The Institutional Yield Layer for Ethereum*

## **12% - 40% APY**

Sophisticated options strategies for enhanced yield generation.

## **MEV Yield Extraction**

## **25% - 50% APY**

Advanced MEV capture through smart order routing.
